All accepted posters will be eligible for nomination for this award providing they meet the requirements and guidelines for student poster session as described on the website. The presentations should consist of well-prepared materials about the work, posted on a designated board. It is required that an author should be registered for the conference and in attendance to present details and answer questions during the designated session time. Since the award will be made at the session, it is recommended that the authors be present for the majority of the session.

A Poster Award Committee will review all of the extended abstracts and the posters. Selections will mainly be based on the level of the innovation, research, final output, quality of the poster, and clarity of the presentation.
